## Performance in the sign language musical "Sutra of Filial Piety" (2 April 2016)

On 2 and 3 April, 31 students and 8 teachers from our school performed in the "Sutra of Filial Piety" musical, organized by Tzu Chi Foundation (Hong Kong division), in the Academic Community Hall at Hong Kong Baptist University. An audience of around 2,000 people enjoyed the three shows with all the cast and crew members.

The musical was particularly meaningful as it illustrated the Sutra in the form of a musical through sign language.

Our life is granted by our parents, and this musical is particularly insightful as it sheds light on the hardship our parents have gone through while raising us. Parents make their best effort in raising us, and we as children should try our very best to pay tribute to them. One good way of doing that would be to take good care of ourselves, and to contribute to the good of the community!

## ENCOUNTER WITH ENLIGHTENMENT (Fund-raising Concert 20/08/2016)

A successful performance

Farewell at Hong Kong Airport

This summer, two of our former S6 students embarked on a two-week journey around Europe. The trip was generously sponsored by Madame Woo who offered a special scholarship for outstanding students.

"During the trip, we had an incredible opportunity to travel to 8 countries in Europe.

Those days were unforgettable. Whenever we think of Europe, we picture the beautiful sights such as the Eiffel tower and the Colosseum.

Venice was our favourite place. It had spectacular and vibrant views and an incredible atmosphere. It felt like we were in a festival because people around us were cheerfully gathering and singing together.

We would like to thank Madam Woo for giving us a chance to explore outside Hong Kong and experience Western culture and history first-hand. It was a life-changing experience." Nishien Nosce and Reynier Salinas

**Our Major Concerns:**  
**To foster self-directed learning**  
**To practice self-discipline**  
**and advocate virtues**

## Our advantages:

1. A true Lantau Island community school
2. EMI and CMI hand-in-hand
3. Focus on English and Chinese
4. Multi-cultural student population
5. Harmonious learning environment
6. Green learning
7. 1:10 teacher to student ratio
8. Willpower training
9. Extra resources to help non-Chinese students learn Chinese
10. Leadership training opportunities
